Intro

G C
When the night is cold and the hours are long,
D
I think upon good times now long since gone,
G Am
But no memory pleases me more to recall,
Am7 D
Than the night that dear Willy came out on a crawl

He was eighteen (STOP)
for a few hours more,
I fed him some whisky
as he walked through my door
The sounds of a house-party
rolled down the street
So we pounded our Pilsners
and leapt to our feet.

G C
Oh he had his filling
D G
Tequila swilling
Em
Oh he put out the flames
Am
And it earned him the name
D G
Fire Marshall Willy

Instrumental kurz

Oh we led him away to the depths of the house
With Jose Cuervo and Old Famous Grouse
He took 15 shots in the blink of an eye
Fell onto the porch by the BBQ side

And they told him just sit down instead
Don't touch that extinguisher shiny and red
But William was drunk as I've e'r seen a man
And so the insanity surely began

Chorus + Instrumental like Intro

Aw, ten minutes later he flashed me a smile
There wasn't combustion within twenty miles
He'd hosed every chap in the whole fucking place
And threw his cold water right in Chelsea's face

When the night is cold and the hours are long,
I think about good times now long since gone,
But no memory gives me more pleasure than
Than the night that dear Willy became a new man D

Chorus 2x

Oh he put out the flames
And it earned him the name
Fire Mar-shall Willy
