End of transmission, Finally the stand-by Twilight exhibition,
Without a reason why Softly sounds the oud, Through the desert
You misunderstood, The game of hazard

Been sold at the market, They've taken your name
The last star of the night, Stolen from the hall of fame
Set off on horseback, Through the yellow sand
Followed a small track Led by a firm hand

G D A D

A journey to the unknown, Where all history is gone
To find your counterpart, Someone pretty and smart
Listen to the slavedrum, At the end of the time

Instrumental like Intro 2x

I couldn't hold you, Your plans seemed clear
I didn't get through, You just wouldn't hear
The ship left in the night, With a strange destination
No longer by my side, Out for some sensation

Listen to the sad song, Sung by a twisted tongue
Sing it along and along As long as you're young
They'll decide for you When there's an end
There's nothing I can do I've been Juniper's friend
